

# AN-ACC and clinical management – all in the one solution

Telstra Health's residential aged care software has comprehensive Australian National Aged Care Classification (AN-ACC) tools to help you manage resident care and funding information in the one, easy to use solution.

## The Telstra Health AN-ACC difference

One source of truth for funding and clinical management

Manage funding from first enquiry through to detailed reporting

Gain visibility of resident and lead funding mix

Easily record evidence towards funding reappraisals

Minimise risk with one entry point for resident data

## Your AN-ACC toolkit

Telstra Health's residential aged care software suite provides you with the tools to enable end-to-end AN-ACC management.

### Resident Manager

Your resident administration and claiming software

- Manage AN-ACC classes for resident leads and enquiries.
- Estimate AN-ACC funding amounts with an interactive calculator.
- View Variable admission rates, updated directly from Services Australia.
- View the most-up-to-date AN-ACC rates, with no manual update needed.
- Track opportunities for re-assessment with the Potential Reassessments report.
- Track the status of re-assessment requests with the Reassessments report.
- Track care minute targets with the Care Minutes report.
- Finalise claims with AN-ACC data populated within the relevant Statements.

### Clinical Manager

Your clinical and care management software

- Tag documentation as evidence towards funding reappraisals.
- View the overall funding a facility is expected to receive.
- Replicate the Assessment Tool used during AN-ACC Assessments.
- Upload Excel spreadsheets with resident classifications directly into the software.
- Record AN-ACC classifications and select default classes for residents.
- Record the Modified Monash Model (MMM) classification and approved bed numbers.
- Capture palliative care details and identify residents who are admitted as AN-ACC Class 1.

## More AN-ACC features on the horizon

Further AN-ACC features will be added to our Resident Manager and Clinical Manager solutions over the coming months, including updated PAS and Cornel Assessments, AN-ACC alerting, additional reporting, as well as the removal of ACFI management functionality.

## Your end-to-end AN-ACC journey

Manage AN-ACC classes for leads and enquiries

AN-ACC rates updated automatically from Services Australia

Record AN-ACC evidence for assessors

Report on expected funding rates
