

# Clinical Manager

Revolutionary new assessment forms  
for compliance & quality care

## Setting the benchmark for Aged Care compliance

Telstra Health's new suite of assessment forms in Clinical Manager set a new industry standard, ensuring aged care providers are fully compliant ahead of the implementation of the new Aged Care Act.

### Seamless integration with Care Plans

Our assessment forms are fully integrated within Clinical Manager, making compliance effortless while ensuring a seamless connection between compliance requirements and care delivery. These forms:

Provide a structured approach to compliance, eliminating manual gaps and inefficiencies.

Capture essential resident data and care needs, feeding directly into care plans for better outcomes.

Enable real-time tracking, ensuring continuous improvement and alignment with evolving regulatory standards.

“The new assessment forms have revolutionised our compliance process. The integration with care plans ensures that we are always audit-ready while improving resident care.”

**Quality Management Team**, Pacific Cape Lodge & GLAICA House Residential Aged Care Facilities

## Designed to help organisations deliver outstanding care

Our groundbreaking assessment forms simplify the transition to the new Strengthened Aged Care Standards by:

Developed through over 850 hours of research and collaboration with 23 organisations.

Seamless mapping between the assessment and care plan ensuring the care plan is always up to date.

Keeping providers ahead of regulatory changes with proactive, intelligent tools.

Capture meaningful data with the right language and intent beyond compliance and ensuring alignment with the Strengthened Quality Standards.

“Providers can feel confident that clinical and care staff have access to comprehensive care directives to meet the increasing needs of our older population seeking care.”

Ian Corney, *Quality and Systems Coordinator, Rockpool Residential Aged Care*

## About Clinical Manager

Clinical Manager is designed to help aged care providers streamline business processes and deliver top-tier care to residents. It significantly reduces compliance risks, enhances operational efficiency, and helps maximise funding.

Easy to Use

Resident-Centric  
Care

Extensive  
Tools

Progress Notes  
and Alerts

Detailed  
Reporting

“The new framework really puts the resident at the centre of their care. Moving away from task driven assessments and care plans will help users see the person whilst also ensuring all clinical care elements are addressed. It really will be a win-win for the residents and the staff!”

Katrina Crump, *Clinical Practice Specialist – Dementia and behaviour support, Uniting*

## Why Choose Telstra Health's Clinical Manager?

### Time and Resource Efficiency

Telstra Health handles the integration of new standards, allowing you to focus on other projects.

### Tailored Training Solutions

We educate your staff on the new processes, ensuring smooth organisational change.

### Stress-Free Compliance

With our assessment forms and training, you can be confident in meeting regulatory requirements without hassle.

### Resident-Centric Care

Clinical Manager streamlines care delivery, helping providers improve resident outcomes while ensuring compliance.

### Advanced Reporting & Insights
